## You print it and we make it stand

The "Max Mount" program is for customers requiring quick turnaround of any of the four most commonly produced, short-run (up to 100 finished pieces) mounting project sizes. It is based on the use of customer-supplied, pre-printed press sheets mounted to 3/16" white foamboard with a 5.0 mil. satin, standard copolymer overlamine film. \* We guarantee to complete your "Max Mount" project within 72 hours from the receipt of all of your stock or your next job is discounted 15%. We offer a 48-hour service at 1.5 times the above listed pricing and 24-hour service at 2.0 times the above listed pricing. You must mark your order "Max Mount" to receive the program guarantee and pricing. † Toner-based, digitally printed sheets requiring a non-standard (Flex Bond Xtreme) copolymer film can be processed, but are exempt from the program. Review the Flex Bond Xtreme Printer List above to determine if your project is eligible for this program. Visit [www.flexfinishing.com/reference/filmist.pdf](http://www.flexfinishing.com/reference/filmist.pdf) for the latest Laminating Film Compatibility List. \*\* A "Max Mount" project can be combined with additional services, but the additional services will not be included in the standard turnaround guarantee.
